October is National Breast Cancer Awareness Month

Domestic Violence Awareness Month evolved from the first Day of Unity observed in October, 1981 by the National Coalition Against Domestic Violence. The intent was to connect battered women's advocates across the nation who were working to end violence against women and their children. The Day of Unity soon became a special week when a range of activities were conducted at the local, state, and national levels.

NBWW (National Business Women's Week) is October 22—26 Since 1928 Business and Professional Women has sponsored National Business Women's Week®. Each year during the third week of October, BPW members across the country take the opportunity to celebrate and acknowledge the accomplishments of working women.
